### Data Sources

2017 U.S. Census Data

Minnesota Departments of Health, Human Services & Education

First Children's Finance

Some of the data used in this report is date sensitive. Data used for this report was pulled on 10/16/19.

\* Expected capacity is an internal calculation of First Children's Finance based upon historical data collection

\*\* Expected # of children Under 5 is an adjusted calculation from 2017 U.S. Census Data

† Adjusted Total reflects adjustment to account for stay-at-home parents who provide care

†† # of Infants/Toddlers is an average of data from multiple sources

# Warren, MN Child Care Potential Needs Analysis

## 20 Mile Radius of Warren, MN Zip Code Analysis

Infant Slots Needed	Toddler Slots Needed	Combined Infant & Toddler Slots Needed	Percentage of Total Need
-5	-10	-15	17.65%

### Child Care Slots - Potential Need Analysis

### How is the Gap Supported Today?

When a community is experiencing a gap in care, the first question we ask is: How are these children being served currently? The child care gap in a community is serviced through multiple ways and each has it's own set of separate impacts to children, families, and the community.

- Variances (Historical)
- Un-employment
- Out of Area Care
- Legal or Illegal Unlicensed Care
- Under-employment
- Family, Friends, & Neighbors
